Prayer for Computer Users

Most Reverend Richard J. Sklba
Bishop Emeritus of the Archdiocese of Milwaukee
https://www.archmil.org/Our-Faith/Prayers/computer-users.htm

Bless again this day the mysterious computer
    which awaits your power and my human effort.
Grant wisdom, knowledge and a clear memory to my mind
    as I sit before this new creature of your infinite power.
Bless my heart with endless patience whenever needed.
Guide my hands that I may be your faithful servant
    in every key I press.
Enable my limited efforts to bring glory to your Name
    and blessings to your people everywhere.
Delete me not from your Kingdom and save me
    from all fear and from all error of sin and ignorance.

I whisper this prayer, mindful of the needs of all
with whom and for whom I work,
through the power of your Word
and the life-giving energy of your Spirit.

Amen
