**I**'ve learned if you want success you can't chase it.

Instead you must decide to make a difference where you are...and success will find you.

I've learned if you want to find happiness don't seek it.

Instead decide to work with passion and purpose...and happiness will find you.

Happiness is a byproduct of feeling fulfilled.

The key to experiencing real success and true happiness is to be The Seed and plant yourself.

When you plant yourself where you are with a passionate desire to make a difference you'll grow into the influencer you were born to be.

When you serve in small ways you get more opportunity to serve in bigger ways....

Your job is to plant yourself each day and be the best you can be and bring out the best in others.

Your job is to grow yourself and grow others.

When you do this and allow yourself to be used for a greater purpose, a greater purpose will move through you and bring greater opportunities, greater success and greater joy and happiness to you.

The greenest pasture is not somewhere else. It's the place where you plant yourself and grow into the leader you were born to be. When you do, you'll produce an abundant harvest filled with real success and true happiness.
